RECEPTIONS.

GRAPHIC AND OTHER MATTER.

WE ARE AUTHORIZED TO ANNOUNCE that the Ladies of the Executive Mansion, Mrs. Patterson and Mrs. Stover, will be at home on Monday evenings, after seven o'clock. The evening has been fixed upon for the drawing-room receptions of the ladies in lieu of the afternoon as during last season, and they will receive every Monday evening until further notice. MRS. POSTMASTER GENERAL RANDALL WILL

hold receptions on Wednesday afternoons of each week.

THE LADIES OF SECRETARY BROWNING'S FAMILY will receive their friends, as usual, on Wednesday's, from 12 to 4 o'clock, p. m. Residence on Montgomery street, Georgetown Heights.

SPEAKER COLFAX'S RECEPTIONS are to be every Friday evening, from 8% to 11 p. m. The receptions of the Speaker's mother and sister, Mrs. and Miss Matthews, for ladies, and gentlemen accompanying them, will be every Wednesday afternoon, from 1 to 4 p. m.

BRAIN AND BODY WORK. A late number of Hall's Journal of Health contains, it seems to us, some ideas upon the subject of brain and body labor, well worth the consideration of people of large cities, and especially of this city where so large a proportion of the population are occupied in sedentary mental pursuits. Physiologists after patient and close inquiry have arrived at the conclusion that the power of the entire man, his vitality, is as much expended by two hours of deep mental efforts as by a whole day of ordinary bodily labor; hence the man who spends four hours in the twenty-four in earnest mental labor, goes to the utmost allowable limit for a day's work, and all the time that remains, after deducting ten hours for eating, sleeping and dressing should be conscientiously expended in muscular exercises, which require no special brain effort, and such exercises should always by preference be those which are agreeable, useful and profitable, for they not only promote the condition of the body, but give rest to the brain, which, by that rest, recuperates its powers. Many can remember, when turning back to their school days, that they have gone to bed feeling that they did not know their lessons. ye, on rising in the morning, the mind would run over them with a gratifying and surprising clearness. It is this which accounts for the observation that persons have striven hard to remember some important fact, or as to where valuable papers have been laid, and towards morning, when the mind began to awake, a little before the body, this being the time of dreams, the point is made clear in the form of a dream, thus showing that rest of the brain, whether by actual sleep or the passive, comparative rest which manual labor affords, gives mental activity, vigor, perspicacity; from these it follows that no form of muscular exercise is ignoble in a student, a brain-worker, which has to be done by some one, and by being done by him, will save meney, or will save the time of another, who, perhaps, may already be overtaxed. In every dwelling in a large city, there are many things which the master could do which would reflect benefit on himself and others also; some of these may be suggested: get up by daylight, clear the snow from the sidewalks, kindle two or three fires, ventilate your parlors, keep the cellar well swept, split up kindling-wood, after sawing it yourself; whitewash the cellar twice a year, as also the fencing around the backyard; trim the eight or ten grape vines which you ought to have against the fence; kill off the worms which infest them in the summer: root out the clover and weeds from your grass plat; keep your hundred feet of flower-borders in perfect order; if you have a library, dust your books, rearrange them so that you may be able to put your hands upon them in the dark if needed a-sort your pamphlets and magazines, so that no time may be dost should you want any of them in a hurry; in this way valuable time may be saved on occasions when you have no time to spare; then pump water in your tank for twenty minutes every morning; repair all the broken glass yourself; learn how to keep all cracks in the plaster filled with plaster of Paris; keep your roof well painted; help your wife darn some of the basket full of stockings; or sow on the lost buttons of your boys who are at school; or trim their hair, and sew up the rips in shoes, and cut down the pegs or tacks in the inner soles, which so often do per-

eigar, or sipping murderous brandy and water. TWENTY PER CENT .- In the report of proceedings in the House of Representatives yesterday, the reporter inadvertently stated that "Mr. washburne demanded the yeas and nays upon the amendment giving Department employees twenty per cent. increase." The word "Department" was written in the hurry of making the report instead of "Capitol." The increase was confined to the Capitol employees.

manent injury to the feet; keep their skates

in order; have a grindstone of your own

and an iron vice, and keep all the

down carpets; to hang pictures; to take stains

out of marble and wood; to replace mahogany

veneering; to render chair legs and backs firm;

to keep the tubs and barrels hooped up; learn

how to make good flour paste, and keep some

always on hand, ready to mend a torn bank

note; or paste a useful newspaper scrap in some

appropriate place; or have a book for domestic

receipts, and when you see one which seems to

he valuable, paste it in the book under its prop-

er alphabetical head. What a marvellous help

any husband might be to his wife and family in

ways like this, and be saving many a dollar be-

sides, instead of lolling about on the sofa or

chairs; or, with feet on table or mantle, leaning

back and smoking a filthy pipe or noisome

The Chronicle very justly says in this connec-"We sincerely regret that the first report is not true, because the clerks in the several Departments have the same need for increased pay as those in the Capitol. But as the House passed this amendment in favor of the latter by a vote of 8s to 45, we may pretty safely predict that it will not hesitate to pass the twenty per cent. bill for the benefit of the former. The indica-

tion is, at least, encouraging." THE SCENE at George Francis Train's second lecture in Cork was lively. Ribs bent and all but cracked; hats were smashed; loose properties were torn away. An elderly gentleman, wearing a part of his coat, having the handle of his umtrella imbedded in the pit of his stom. ach, and his bat firmly jammed over his eyes and nose, implored mercy in vain. Entrance into the galleries was no deliverance. There the crush was something tremendons. Motion was impossible. The mass was forced into every interstice and down to the edge of the railing by the constantly increasing pressure from without, and many of those in the front clambered over to escape and slid into the body . of the hall, previously crowded to inconven-

ience. So says a Cork paper. HAYTI is one of those lively places which is not happy unless it is constantly having revolutions. Salnave had bardly got himself fixed in the place from which Geffrard was compelled to fly, when a new revolution broke out, which was only quelled by measures as "vigorous" as steel and lead could make them. Now again another revolution is spreading like wildfire, and the fighting has become general. Salomon having been proclaim-d President Hayti is now enjoying the place formerly held

by Mexico. 67 From the publi shers, Ticknor & Fields and from J. Shillington, Odeon Building, and French & Richardson, 334 Pennsylvania ave. nue, we have the March number of the Atlantic Montaly. Despite the fact that three or four active competitors have lately entered the field, the Atlantic undoubtedly maintains its preeminence as the best monthly magazine that the country has yet produced. The number for March is up to its average mark.

From Shillington we have also Godey's Lady's Book and Peterson's Lady's Magazine for March.

THE POOR.

We understand the committee of the Provident Aid Society charged with that duty, had yesterday, an interview with General Howard. in regard to the proper course to be pursued toward properly relieving the poor of the city. After a full and pleasant interchange of views, it was decided best to close the several souphouses on the 1st of March proximo. After that time the Freedmen's Bureau will assume charge of the freedmen, and the society will endeavor, as far as its means will permit, to relieve the other classes requiring assistance.

We understand that it is Gen. Howard's intention to use any appropriation made by Congress for the relief of the poor under his immediate charge for the purpose of providing work for them, and paying for the same at fair rates, rather than to expend it as a purely charitable tund-in the meantime relieving, of course, the wants of those who, from any cause, are not able to work. This is the true course, and in adopting it Gen. Howard shows his usual sagacity and good sense.

To enable the Provident Aid Society to carry out its undertakings in this arrangement, additional funds are needed, which it is hoped will be supplied without delay, otherwise its operations must be brought to a close at a time when there is still great need for them.

THE WORKING PEOPLE.-The New York poor are hereafter to be fed at the public expense. The Commissioners of Public Charities and Correction in that city have made arrangements to feed them daily between the hours of 7 and 11 a m., at three of the New York prisons. All the police authorities are furnished with tickets to give to such of the suffering poor as they may deem deserving of relief, and these measures, it is thought, will relieve much of the distress now existing in New York. A convention of mechanics is to be held in Cincinnati, but the time is not yet announced. It is stated that this convention will take action upon the present condition of political affairs. In New York, a plan has been broached to receive from all the prominent points of the West quotations of the labor market, so that emigrants may be sent at once to the points where their services will be most in demand.

RAILROAD CONSOLIDATION .- The consolidation of the Marietta and Cincinnati Railway with the Baltimore and Ohio Railroad was consummated at Cincinnati yesterday. A new Board of Directors was elected, of which Messrs. John S. King, Jr., Thomas Whitridge, Johns Hopkins, C. Oliver O'Donnell, and Allen A. Chapman, of Baltimore, are members. At a subsequent meeting of the Board Mr. King, Vice President of the B. and O. Railroad, was elected President of the Company.

the community with ice.

By steam machinery of the most approved plan, By steam machinery of the most approved pian, erected at each of our pends, we have stored about twenty thousand tons of as pure ice as can be found anywhere. We have also made arrangements to furnish Boston and Kennebec ice to those who may desire to be supplied therewith. Not having been prepared to furnish the public with a full and constant supply of ice last year, we sold all we then harvested to Messrs. Fowler, Middleton & Godey, (the Georgetown and Washington Ice Compan.) at their offer, at \$3.75 per ton, delivered and weighed daily at their depots, under their promise to supply it to the public promptly, and at such advance upon its cost as would yield them a fair profit thereon. How they fulfilled their promises their many victims can answer. They retailed our ice at from TWENTY TO THERTY BOLLARS per ton, often repreknives sharp, and the handles tight, learn how to mend broken china and common delf; to tack TWENTY TO THIRTY DOLLARS per ton, often representing it as Boston ice, than which it was in no way interior. We did not consider their attempts to underrate the Great Falls ice as worthy of our

notice.

Composed of our own citizens, this company have determined to carry on the "ICE BUSINESS" in such a manner as to protect the community from MONOPOLY and IMPOSITION. We employ during the winter season from three to four hundred resident mechanics and laborers, and expend in and secure to this District thousands of dollars which would otherwise he sent abread. which would otherwise be sent abroad.

The people of the District will hereafter be supplied with our ice by inden pedent retailers, whose interest it will be to furnish it at the lowest prices at early hours, and give full weight.
Reing a regularly INCORPOBATED COMPANY. we guarantee the strictest compliance with our contracts; and satisfied with a reasonable return for the capital we have invested in this enterprise,

Less than one ton... Ferriage free to dealers.

Ice at the Washington depot. A liberal discount to dealers. Boston and Kennebecice not to exceed six dollars
